Subject: **HELP DECREASE** THE REGULATORY BURDEN ON BUSINESS

Dear John Morrall:

Mr J. Morrall

Re: US Dept of Commerce - **US** Census Bureau
Annual Captial Expenditures Survey

Subject: Reducing Business Reporting Requirements

Mr. Morrall

Your name was provided to me by the **US** Chamber of Commerce as the person to whom to direct my concern with wasteful US Govt. documentation needs, hence the following letter.

A cover letter, nine (9) pages of instructions & six (6) pages of form (ACE-1(S) (1-28-2002) was received from the **US** Dept of Commerce to enable us to advise the Census Bureau component thereof of **my** business's annual captial expenditures to "help measure GDP." The information requested duplicates information already submitted to the US Govt. on my business' annual tax return.

If the Census Bureau needs this work to keep busy, have them extract the info from tax returns rather than burdening businesses to report what has already been reported.

And, "Title 13... requires you answer this survey..." so if the "representative firms" selected to participate are too busy in running a business to reply, I must assume Title 13 provides for some sanctions to be levied.

Let's stop this time wasting, non-productive, duplicative and costly (private & public) nonsense.
